

# RAKVERE VOCATIONAL SCHOOL

**Piret Torm-Mirontšik**  
**Rakvere Vocational School**  
**Development- and quality manager**

hea oskus meilt!

# Our institute is proud of...

1. Implemented supporting service for teachers and students (process started at 2008)

- Involves career-coordinator, psychologist, educationalist, recreation manager, school's nurse, teachers and schoolboard members
- Systematic work for supporting students and teachers (behavioural problems, early school leaving, learning debts)
- Examples of activities: teacher training, development days to all personnel (3 times a year), (individual or group) support for teachers and students, individual curriculum or individual learning schedule, lessons observation etc.

2.ESF project to minimise early school leaving

- 5 vocational schools from Estonia attend in this project.

Activities:

- Trainings for school board members, teachers and for supporting service specialist (student's problems, diverse learning methodology)
- Development of supporting service – implement student's help roundtable

# Main challenge that we meet is...

- How to apply best practice (what other school have experimented)
- For example:
- capability tests ,extra lessons , room for learning support
- „Supporting students“
- Beneficial use of individual curriculum or individual learning schedule
- Continuing teacher training
